

Crime Scene Report: Zenith Theater

The Zenith theater is arrayed for the previous night's cage fighting card. Two separate locker rooms, labeled only by number, each have their own show foyer and walkway leading to the cage. The walkway from Locker Room Two to the cage passes the left side of a section of reserved seating, and the walkway from Locker Room One is adjacent to the right side of this section. The theater is empty and has been cleaned, although the fight cage is still standing.

The two locker rooms and the main event area have all been inspected for evidence, recorded within their respective areas of the casefile.
