

Crime Scene Report: Locker Room One

The entrance to the locker room is a “show foyer” -- an area designed to look like the exit of a locker room but arrayed as a film set, so that fighters can be taped doing warmup drills prior to the fight for the broadcast, and shown leaving the locker room for their walkouts. Behind the show foyer door is a small room with a wooden desk and a dingy sink with a mirror. **[FP_0001]** was found on the desk. Through a door to the left of this room is the locker room proper, with rows of lockers surrounding a few wooden benches about two feet tall.

Several doors all around the locker room lead to small, individual rooms where fighters can have some privacy and wait for their scheduled bout.

One locker **[FP_0002]** was found unlocked, and contained **[FP_0003]**, **[FP_0004]**, and **[FP_0005]**. The text messages from **[FP_0005]** have been transcribed by the field technicians.

A second locker **[FP_0006]** was found open and photographed in its current state. The locker contained **[FP_0007]** which was searched and contained **[FP_0008]** and **[FP_0009a]** (reverse side **[FP_0009b]**).

The show foyer contained multiple copies of **[FP_0010]** plastered on each wall. Additional copies of **[FP_0010]** were in the back room with the desk and in the locker room proper. A single copy of **[FP_0011]** was found in the locker room area as well.
