

## **Scenario**

**August 6, 2023**

**Las Vegas, Nevada**

Last night, Saturday, August 5, the World Cagefighting Organization (WCFO) held a pay-per-view fight card in the theater of the Zenith Casino & Suites on the Las Vegas Strip. The event proceeded without any noticeable disruption until around 6:50 pm a serious incident occurred in the show foyer of Locker Room Two resulting in the death of one person.

The immediate medical response was handled by Zenith Casino hotel staff, and as such it was a few hours later before police became aware of the situation and arrived on the premises. After a cursory examination of the scene, what was considered in the moment a mysterious but accidental death was ruled a likely homicide. Due to the international nature of the event, many of the participants and several suspected suspects have already returned home or are scheduled to leave the country shortly. If a murder did indeed take place, there is very little time to find and capture the killer or killers, as in 24 hours they might be on the other side of the world.

Forensic teams swept through the theater and locker rooms and photographed or copied what relevant evidence they could find. Meanwhile, the police detained two possible suspects and took their statements early this morning. However, there will not be time to revisit the scene for additional clues or wait for lengthy labs to be processed. The police can ask those who were involved in the event to delay their travel, but they cannot stop anyone from leaving without hard evidence against them.

You are The Investigator. Sift through the clues, deduce last night's events, and solve the crime before it's too late and the guilty escape justice.
